

Betsy Rogers Knox

## ASBA *Live* IN NEW YORK!

### 28TH ANNUAL MEETING & CONFERENCE

#### **Tree Bark Up Close** **Betsy Rogers Knox**

Saturday, October 22<sup>nd</sup>, 1pm – 4pm, Dutchess Rm, 2<sup>nd</sup> Floor, Marriott

Just like flowers and leaves, tree bark has many unique qualities and characteristics, and can be used to help identify a tree's species. It plays an important role in the tree's growth and longevity.

Using watercolor in a step-by-step approach learn how to illustrate the identifiable patterns in several common tree species.

#### **Materials List**

Watercolors:

Daniel Smith – Alizarin Crimson, Audecolin Yellow, Quinacrine Gold, Cobalt Blue, Ultramarine Blue

Winsor-Newton – Burnt Sienna
