## ASBA *Live* IN NEW YORK!

### 28TH ANNUAL MEETING & CONFERENCE

#### Dissecting and Drawing Flowers Dr Dick Rauh

Friday, October 21<sup>st</sup> afternoon, Watson Education Building, NYBG – Lab.

Board your motorcoach for departure from the hotel at 12:45 pm. Beverages and snacks are permitted on the motorcoach. Arrive NYBG at approximately 1:15 pm. Disembark the bus and walk a short distance to the Watson education building.

This class will be held in the NYBG Lab. This will be a chance to use a dissecting scope to investigate and measure the details of flowers. We will sketch in pencil what we see and try our hands at cross-sectioning and organizing a laboratory page. Flowers will be supplied.

The motorcoach will depart NYBG at 4:15 pm, arriving back at the hotel at approximately 4:45 pm.

#### Materials List

Student should have a range of pencils, a kneaded eraser, and a sketchbook of decent quality, smooth surface paper of 9"x12" or 11"x14" and a clear 6" ruler with a centimeter scale.
